

A very delicate and painful operation was performed Monday on Mrs. Jas. Taylor, by Dr. Philip, assisted by Dr. Stephenson, Dr. Scanlan, of Page and Dr. Bergstrom, of Cooperstown. A tumor weighing in the neighborhood of forty pounds, was taken from the lady, and all circumstances considered, it is one of the most successful operations of its kind, ever performed in the state. Mrs. Taylor is resting easy and it is hoped will soon be around again.
