

Rollef Berg, one of our prominent implement dealers, recently purchased the furniture stock of Knute Christensen of Kensal and as soon as arrangements can be made for suitable quarters, will open up a furniture store in that town. He will also handle farm implements and machinery and the people of Kensal and the farmers of that vicinity are to be congratulated on securing a business man of Mr. Berg's ability. Mr. Berg will operate the store at Kensal in connection with his implement business in Courtenay and will be in active charge of the store part of the time himself, which alone, is a guarantee of its success.
