

Mr. and Mrs. Henry Bond returned Thursday from the San Juan islands in the Pacific ocean where they had been for a few weeks for the benefit of Mr. Bond's health. They were delighted with the trip and found on the islands one of the greatest health resorts in the world and Mr. Bond was greatly benefited. People from all over this country are going there for their health and they met many whom they had known years ago and had not seen nor heard of for a long time. Mr. Bond met his brother whom he had not seen for fifty years and did not know where he was. On the island they raise all kinds of fruit of the finest quality and the bathing is excellent. It is the intention of Mr. Bond to return to the island just as soon as he gets his threshing done and his fall business attended to. He has been in poor health for some time and it is a great relief to him to find a place where he can enjoy life.
