

Dr. and Mrs. Cosford, who have resided in the city over three years leave Monday for Rapid City, S. D., where they will reside. Dr. Cosford was assigned to this point as inspector for the government in the service of the bureau of animal industry. His work in this part of the state is about completed and the necessity for his further services here is not found. The quarantine on cattle has been raised and great improvements have been seen following the treatment that has been established under his direction. There will be no appointment made at the present at least, to fill the vacancy and what work in that line is needed will be done from Bismarck.—Alert.
