

SCHOOL NOTES

Miss Baillie improved Lincoln's birthday by a visit with the home folks at Valley City.

The attendance of pupils has been very satisfactory during the cold weather, little and big all on hand as a rule.

The school will observe Lincoln's and Washington's birthdays with a program of exercises on Friday afternoon, February 23.

One of our teachers was incapacitated for work this week owing to a rebellious motor. Miss Helen Robinson ably taught the room for the week.

The eighth grade are getting their graduation exercises started and all should have them well under way this month. Our schools will close this year the latter part of May.

The next meeting of the teachers' association for Courtenay will be held Saturday, March 3. Quite a program has been prepared if the persons assigned all prove loyal to duty.
