

SCHOOL NOTES

A fine assortment of card mounted samples of grains, grasses, weeds, etc., was received the other day from the Agricultural College. The college has established a correspondence course in agriculture for teachers and the movement is meeting with quite general favor among the teachers.

The Grammar room was sorry to lose one of its valued members by the removal of Clara Norell to her home in Minnesota. The good wishes of all her schoolmates go with her. Clara has been making her home with her brother, Mr. O. E. Norell, who this week removed with his family to Mountain Home, Idaho.

All citizens of our town are cordially invited to visit the teachers association at the high school room tomorrow—Saturday. The session will begin at 10 a. m., and will continue for a good part of the afternoon. A number of papers on five school topics will be given. Superintendent Wanner is expected to be present and will address the meeting.

The eighth year class organized a few days ago by electing the following officers: Emma Edwards, president; Inez Atwood, vice-president; Blanche Walsh, secretary, and Frank Millen, treasurer. Preparations have been set on foot for the closing exercises of the year which will be in the nature of an eighth grade commencement. There are now in the class eighteen pupils but it remains to be seen whether all will be able to secure the necessary grades to permit them to receive diplomas.
