

## **Kensal News.**

From the Journal.

---

George Richmond was called back to Jamestown Monday morning, by a message announcing that his wife had been taken to a hospital during the night and that a surgical operation would need to be performed.

Miss Burnham, of Moorhead, is filling Prof. Carr's place since last week. Meanwhile the professor is out calling on friends over the county in an effort to secure the nomination for county superintendent of schools.

J. O. Johnson and N. M. Boe returned from their trip to Alberta Monday morning. Mr. Boe found the country so much to his liking that he bought a half section of land. Mr. Tobias Harr of Bordulac also went up and bought a half section. It seems that all who go up in that country come back with "the smile that wont come off."
