

## Kensal Items

Hans O. Hargen writes us to send his Journal to Lethbridge, Alberta, Canada. He informs us that he has secured a fine homestead and that he likes the country very well.

According to reports from the different localities surrounding Kensal it may be estimated that about 80 per cent of the wheat is seeded. This would indicate that spring work is not so late, as it is considered safe to sow wheat up to May 10.

Chris. Bredahl received the sad news of the death of his father which occurred Saturday, at his home at Maple Valley, Wis. Mr. Bredahl left here Sunday morning to be present at the funeral.

Our ball team and a large number of fans drove to Melville Sunday where a game was played with the local team. The weather was most unfavorable, being cold and snowing through the entire game. Our boys gave the Melvilleites an awful beating, the score being 17 to 0 in favor of Kensal, which indicates that our's is a fast aggregation, it being generally known that the Melville boys are not so slow themselves. Whoop her up boys, from the start, and you will continue throughout the season.

J. A. Hultberg was an arrival from Sheyenne Monday evening. Mr. Hultberg has been in the tailoring business at Sheyenne for the past six months and has worked up a good trade, but on being induced to come to Kensal and look the town over, he has found so much encouragement among our boys and their nobby togs, that he has decided to locate here. He is also an excellent musician, playing the slide trombone, and will make a valuable addition to our popular band.
