

Improved Telephone Service }

The Northwestern Telephone Company has been making improvements in the service at this point which is much appreciated by the patrons of the line. There is now a private line now from here to Jamestown and it is not necessary to call Valley City and take the chances of the line from there to Jamestown being busy, thus causing a great deal of delay. The party is now called direct and this office is the only one using the line so that we are at all times assured of prompt service.

This has also been made a central office for a number of the towns along the line. Kensal, Wimbledon, Leal and all the towns around now have to call Courtenay to be connected with other points. This makes a great deal more work for this office and of course the pay will also be increased with the increased labor.

This will insure Courtenay a prompt and efficient service at all times.
