

H. E. McDorman, special agent for the Northwestern Telephone Company, has been here this week looking over the country with the intention of installing a rural system. Most of the time since arriving here has been spent among the farmers southwest of town and we understand that they expect to put in a line in that direction. They already have a line laid out from James town to Spiritwood lake and it is their intention to connect with that, making direct line to the county seat. This is something that is much needed in this section of the country and we hope that the farmers will become interested and take hold of the matter and shove it along.
