

---

Upon the advice of her physician, Mrs. O.T. Fosholdt, accompanied by her husband, left Tuesday night for Rochester, Minn., to undergo a physical examination and seek relief from what is diagnosed as a case of chronic appendicitis with which the patient has been troubled for several months and an operation will perhaps be necessary to find permanent relief for her ailment. It is to be hoped that the noted doctors at the St. Mary's hospital will succeed in bringing back her former good health and strength.
