

Miss Esther Hanson left Wednesday for Reeder, N. D., where she has filed on a homestead and on which she expects to live until she can prove up. Land in that neighborhood is becoming more valuable as the fertility of the soil is realized and it will undoubtedly give her a good start in a financial way. Miss Hanson has a large circle of friends who wish her an abundance of success in her new location and who admire her grit in braving the trials of "holding down" a claim.
