THE FLY DOCTOR

Do you know—that practically all summer diseases treated by your doctor are carried by flies? We suggest—screen your house.

Do you know—that typhoid fever, dysentery, summer complaint and tuberculosis are caused by flies? Beware—screen your house.

Do you know—that boards of health everywhere are fighting these diseases by fighting the fly? They counsel—screen your house.

Do you know—that where there is no sickness the doctor does not call? Economy says—screen your house.

Do you know—that the dollars spent in a case of typhoid are more than in the screens for the largest house in town? Your pocketbook demands—screen your house.

Do you know—that our window screens fit tight, and our door screens were built especially for us from kiln dried pine and a strong woven wire cloth. Our screens last for years after you—screen your house.

Do you know—that you should come to us if you want good screens, strong screens, tight fitting screens (the kind all particular people buy) when you—screen your house. Rogers Lumber Company. L. A. Giese, manager.

Agricultural College Exhibit at Barnes County Fair

There will be something of interest for everyone in the exhibit which the Agricultural College will make at the County Fair at Valley City, and especially for every farmer who wishes to increase his yield and improve conditions. The following are some of the features of the exhibit:

1 Results on 24 demonstration farms showing increased yield due to better cultural methods, seed selection and crop rotation.

2 Milling and baking experiments as conducted by the United

RIVERSIDE HOSPITAL

Capacity, 50 beds.
