TIMELY TALKS

COLD SNAP NO. 1

You shrewd men and clever women, you who have reduced economy to a science and to whom thrift is second nature; to you the saving of a few dollars right now is of signal importance.

Your savings, from continued toil, if invested in doctor's bills or huge quantities of fuel, might recall the man who locked the barn after his horse was stolen, but if a very small part of those savings are invested today in our "quality" Storm Sash and weather proof doors for all outside windows and exposed doors, they will soon pay for themselves in increased capacity and fitness of yourself and family, to say nothing of the intense feeling of warmth and comfort they will bring to your home.

Our goods are very choice. They will please you. Quality and workmanship considered, they are a snap. Rogers Lumber Company, L. A. Geise, manager.
