A Library for Every Home

A library for every home is being made a reality by the North Dakota Agricultural College. The Extension department has solved the problem with the Package library.

What is a package library? It is a package made up of a number of articles from books, magazines or bulletins on some subject, as Rotation of Crops, Alfalfa, Alkali Soils, Commission Form of Government, etc. Subjects that have two sides are discussed from both standpoints. It includes subjects on agriculture, horticulture, domestic science, science, civics, biography, etc.

These libraries will prove particularly valuable for the member of the farmers' club who wants to prepare a paper or talk, for the student who wants to write an essay or oration, or prepare for a debate; for the club woman who wants to get up an address, for the editor who wants to prepare an article, for the doctor, lawyer or business man who has an address to prepare. It will contain the information that it is usually so hard to find, when one wants it bad. Provisions have also been made for supplying material for declamations, dialogues and amateur plays.

Anyone interested should write to A. G. Arvold, Agricultural College, N. D., for a copy of the Extension, Vol. 5, No. 1, which gives complete information as to the subjects on which material is prepared, and how to secure one of these libraries or declamations or dialogues by merely paying the express or postage.

Farm for Rent

I have for rent, for one or more years on very liberal terms, a three-quarter section farm located five miles from Melville and seven miles from Edmunds, N. D. Two hundred acres are under cultivation and balance is in hay and pasture land with a fine, everflowing spring of water through pasture. Would prefer a man with family who would engage in dairying. Creamery located within seven miles from farm. Farm is well equipped with good 6-room house with stone walled cellar, all in good repair; also has good stock buildings. A 5-acre grove of trees surrounds buildings and makes excellent shelter. Fine well of soft water. Rural mail route passes farm. Enquire of, or write to owner.

DIFFICULTIES IN THE WAY.

Mrs. Flatter—It seems a shame that Mrs. Clubber should have so many difficulties to contend with when she's trying to do all this charitable work.

Mr. Flatter—What's happened now?

Mrs. Flatter—Oh, she left her children locked in the flat this afternoon to go to the child welfare exhibit, and while she was gone the baby fell out of the fourth story window and the oldest girl cut off three fingers in the meat chopper.
