

Sandy C. Satre, for many years a trusted employee of the implement house of Rollef Berg has decided to change locations and has handed in his resignation, leaving Sunday for Valley City where he has accepted a position with the Flora Implement Co., one of the largest machine and automobile dealers in that city. He returned as soon as the weather permitted threshing to be continued and will finish up what grain there is left on some of the late fields. He has had a fairly good run with his threshing machine this fall and has put in over thirty days of threshing. As soon as threshing is completed Mr. and Mrs. Satre expect to move to Valley City where they will take up their permanent residence.
