

Jacob Isley and daughter arrived Sunday morning from their home in Kansas and will begin housekeeping here as soon as the finishing work is done on their new residence which Mr. Isley started before he went home. For several years Mr. Isley has run an elevator here and lived alone but he grew tired of that and built a nice new house and now has his daughter with him, who will keep house for him. Mr. Isley reports crops in Kansas as very poor and business down there as very quiet.
