
Frank Plinsky Shot

The eleven year old son of Frank Plinsky, living near Jim lake, was accidentally shot in one knee Friday while out hunting with his uncle. His uncle was carrying through the brush a loaded and cocked gun when the trigger caught and the gun was discharged. The load struck the boy near one knee, badly tearing the muscles. It is quite a serious wound and may cost the boy his leg. He is at his father's place at the lake.
