

Abe Posey and family returned Sunday evening from Wichita, Kansas, glad to get back to a good country and will remain here in the future. They have nearly grown web footed wading around in the water down there this year and business has been practically suspended all summer on account of the floods. Abe says this country is good enough for him and the people here are glad he feels that way. They will reside in Courtenay where Abe has formed a partnership with Attorney Coffey in the collection business.
