
FRED WILL HAVE LIGHT

FRED ZOLLNER HAS PURCHASED THE WIMBLEDON ELECTRIC LIGAT PLANT.

Fred Zollner has purchased the Wimbledon electric light plant for the consideration of \$2,500, the deal being made through the Mark & More Land Company of Wimbledon. For some time the plant has been lying idle and it is understood that it never was a paying proposition an account of the town being too small. Fred informs us that he has secured a twenty year franchise to operate an electric light plant in Wimbledon and he expects to purchase a much larger plant and is figuring on installing it half way between Courtenay and Wimbledon and operating in both towns. This is a capital idea and if worked out on this plan no doubt the enterprise can be made to pay a good dividend.
