

All law abiding citizens will uphold the action of the county commissioners in telegraphing a protest to Gov. Allin against the pardon of Ener O. Stromme who was sentenced to five years in the penitentiary a little over a year ago. The tax payers of Griggs county have paid too much for court terms to approve of pardoning a man who has committed one of the worse crimes on the criminal calendar,—to pardon him before he has served half his sentence. We have had enough 'monkey' business at the expense of the county in the past, without making a farce out of this last conviction.
