

The Sentinel last week reported 106 scholars enrolled in our public schools which is about as near as it usually comes to being right. There are 166 enrolled, distributed in the various rooms as follows: High school 13; 7th and 8th grades 25; 5th and 6th grades 40; 3d and 4th grades 36; 1st and 2d grades 52. We just make the correction because it looks better in print.
