

Chas. Newton, who has been operating a threshing machine around Hannaford and Helena, fell from the rear end of a wagon last Friday, striking the ground in such a manner as to injure the spinal cord and cause complete paralysis of the body. Mr. Newton is in very bad shape indeed. He was brought into town by Robt. Fluke last Saturday and on the advice of friends was taken to Fargo to undergo treatment at the Osteopathy institute. We sincerely hope that Charley will recover the use of his body and good health speedily. Later—he died last Monday.
