

The marriage of Dr. T. J. Glasscock and Miss Sadie T. Savre took place at Valley City, on Wednesday, October 16, 1912. Both parties to the contract are well known here, Dr. Glasscock having been the local practicing physician for the past year, and Miss Savre has taught several terms of school in the neighborhood. It is reported that they will make their future home in Colorado where the doctor will re-engage in the practice of his profession. When the doctor left here for Valley City Tuesday he was treated to a dose of rice that was so thoroughly and conscientiously applied that he could never wish any of his own prescriptions for his patients to be applied in a more satisfactory manner. This, of course, is a way friends have of expressing their good-will, and the send off the doctor got was one that he will long remember.
