

A shooting affair took place on the farm of Albert Wells in the northeast corner of this county. Mr. Wells had gone to Aneta and one of the hired men went into the house and asked for the rifle saying that he wanted to shoot gophers. He went out in the field and shot the other hired man from behind; he then shot himself. They are both expected to recover. No cause for this shooting is known, the probability is that the man doing the shooting had become insane.
