

## **Soldier Boy Dead.**

Ernest Ellis, second sergeant in Co. G. during the Philippine campaign, has died at his father's home. His health has been precarious ever since his discharge from the army, but he remained at work on the coast until about three weeks ago when he returned home via Valley City to die. He was for years well known here and was a popular member of the company. His father and mother reside on their farm at Marshall and a brother is in business there.
