

## Runaway Team.

A team belonging to A. A. Canfield ran away Friday while being used to move Mr. Canfield's office furniture to his new quarters in the Fred Grannis restaurant building. The load was dumped and the team collided with a telephone pole, breaking down the pole and smashing the wagon to pieces near the residence of F. O. Olsen. Taking with them the front wheels of the vehicle, the team circled the town at full speed, finally running into a barb wire fence southeast of town. The horses fell and became tangled in the wire, and the harness had to be cut to get them out. Both animals were badly cut and it will be some time before they will be put in harness again.
