

Sudden Death.

Frank E. Crandell, aged 18 years and 3 months, died quite suddenly at his home last Saturday evening. Funeral services were held at the Congregational church, Tuesday afternoon. He was such a quiet, reticent young man and went out so little that few knew him well. He was unusually kind, obliging, obedient, careful and methodical in his words and work.

Deceased was the son of Mr. and Mrs. Salem Crandell, and was born and raised in this vicinity.

He was driving or leading the horses and fell over suddenly upon the ground. At first they thought him shamming, but when approached it was found he was stiff and rigid and apparently unconscious. It was then thought he had been kicked by the horse and a messenger was dispatched for a physician. Dr. Lang went out, but the unfortunate boy was dead before the doctor's arrival. An examination disclosed no appearance of external injury, and it is believed the cause of death was heart failure.
