

---

Word has been received here that Irene Waltemate, daughter of Mr. and Mrs. Ernest Waltemate, of Palouse, Wash., formerly of Sanborn, died October 11th of spinal meningitis, aged eleven years. Irene had suffered a severe attack of typhoid fever which finally terminated in spinal meningitis with the above sad result. She will be remembered as a bright little girl and her former playmates here will hear of her death with sorrow. The bereaved parents have our sympathy.
