
THE CHURCH AT DAZEY.

"Our Saviors church," of Dazey, will soon be artistically tinted and decorated and windows frosted, while the woodwork will be grained in oak finish. The Dazey people seem to be on the right track, when they want the house of worship to look attractive and homelike. This seems to be in greater need today among our people than ever before. This free country lays particular stress upon having everything in harmony, and why should not this also be considered in church work. We feel assured that after N. D. Anderson, of Dazey, has gathered his artistic skill and had it applied on the Dazey church it will be the finest church in the county. They have set us a good example. *.*
