

DAZEY.

A couple more baseball games are rumored for the near future.

Miss Peterson, a sister of Mrs. C. E. Spicer, arrived recently from California to visit with friends and relatives here.

Mrs. Lew Daly and her two little boys have been visiting with W. D. Cowger's this week. They returned to Valley City Wednesday.

The town is fast filling with people. Just what useful occupation they all have is way beyond our ken. There seem to be but few noboes.

Rev. Kinley arrived from Souris last Thursday, where he has been holding down a claim. Last Sunday he exchanged pulpits with Rev. DeLonge, of Cooperstown, who gave a very excellent sermon in the Lutheran church.

Two games of baseball have been played since the last issue, one on our home grounds with Hannaford, last Friday, and one with the Rogers team Sunday following. We do not at this time feel obliged to reveal the scores. The team is improving fast, and is already above last year's standard. We predict that the team will roll up some victories before the season's close. They certainly deserve the town's support.

On Thursday evening, before this issue reaches many of its readers, the Dazey Public schools will have held their second annual commencement exercises in Society hall. A class of nine completed the course of study prescribed for the common schools of North Dakota. The names of the graduates are: Alfred Nelson, Lulu Larson, May Stee, Clarence Stee, Mabel Olson, Luella Little, Lora Stevens and Charles Paulson.

Last Friday evening the Dazey Literary association gave the final program for the year at Society hall. The meeting was well attended and highly appreciated. Mr. Thurston, the president, outlined in his opening address the progress and development of the society, and depicted its benefits in a very clear manner. And the program that followed certainly vindicated his remarks. It is to be hoped that the work so auspiciously begun will become a permanent feature of the village.
