## INJURED AT ROGERS.

The Minot Optic of Tuesday says: There was a death at the local hospital yesterday afternoon that will cause a sad memory in the new home of a family of immigrants that were on their way from Wisconsin to Canada. It seems that while the freight train on the Soo had stopped at Rogers a little this side of Valley City, little Reuben Wiberg had got out of the car for something and when the train started he had tried to climb into the car, but fell beneath the wheels and one leg and shoulder were cut off. He was picked up and brought into Minot yesterday noon on the passenger and taken to the hospital where he was treated for his injuries. He was too badly injured, however, and passed away yesterday afternoon.
