

Sudden Death.

The wife of Wm. Ritchmeir, who has been living on Mason Bros.' farm near Rogers for about two weeks, was found dead in bed by her husband last Thursday morning. She went to bed apparently in her usual health, and on account of her sudden demise it was deemed best to hold an inquest.

It appears that on account of illness she has been in the habit of using morphine and the testimony indicated that she had probably accidentally taken an overdose. Mr. Ritchmier is also ill and has been taken to the county hospital for treatment.
