# Death Claims

## Young Lady

This community was shocked and saddened as perhaps never before when the news reached here Monday morning that Emma Olson was dead. She was a student at a nurses' training school in Minneapolis, and recently infection set in from an injury which she received. Later, scarlet fever developed. She became rapidly worse, and Sunday night the family here received a message stating she was dangerously ill. Frank left at once, being joined at Fargo by his sister, Edith, but she had passed away before they reached the city.

Tuesday, the body was brought to Sutton and Wednesday the funeral services were held at the Mabel church. Next week an obituary will be published.
