

A county paper last week referred to Lloyd Howden as having completed his high school course at the middle of the term in the Cooperstown school. Miss Leona Dietrich, another Sutton student, also completed her course at the same time in the same school. Leona did the entire four years work in there and one-half years, with an average in all studies of 90 or above, for the entire period, thus being exempt from the examinations usually required at the end of the high school course.
