

The roads this spring are said to be the worst in many years. Cars are being mired down every where, even on the gravelled highways. There is a bad spot near S. G. Howden's which is a regular terror now. Mr. Howden pulled thirteen cars out Monday, and on Sunday, the party who is working on the highway pulled over twenty out. The roads around Sutton are so muddy that school was closed Wednesday for the remainder of the week it being considered impossible for the busses to make their daily trips.
