

Miss Sarah Horn, who has been in Canada and the west for the past two years, arrived in the city Saturday morning, and expects to remain here and care for her mother, who is in poor health. Miss Sarah, while enjoying life in the far north, was very glad to get back to Courtenay, and her friends here are very glad to have her back. She says that up to the time that she left her home in Canada the ground was still clear of snow.
