

## LEAVING THIS PLACE—

G. F. Johnson and family are packing their household effects preparatory to moving to his claim near Beach, in the western part of the state. Mr. Johnson has been located in business in Courtenay for the past seven years and is well known in this community. He says he has a fine quarter out west where coal can be had in abundance for the gathering right from his quarter. This part of the state has been producing some immense crops the past few years and there is no question but what Mr. Johnson will derive a nice revenue by locating upon the land.
