

This office is in receipt of a card from Rev. J. W. Kingston, who is located with his family at Dietrich, Idaho. He says they are having a lovely spring and the farmers are all busy with their spring work. This spring weather sounds good to us at this time, for we are having the opposite, but we are in hopes of having some of the good spring weather before long out this way. Mr. Kingston says that he has just organized two churches with good membership. He reports all the folks enjoying good health.
