

## **New Doctor Arrives**

Dr. G. P. Shepard, who has been located here for some time has sold his practice and office equipment to Dr. J. W. Livingston, and after he can get his accounts collected in, with his wife, will leave for Chicago, where the doctor will spend a year in special study.

Dr. Livingston and wife arrived Monday morning and at once took up the practice.

Dr. Livingston comes with the best of recommendations as a physician and surgeon, coming from St. Paul, Minn., where he was in partnership with a leading doctor. He is a surgeon of ability and has been highly successful. We are very fortunate in securing a doctor with such ability. Mr. and Mrs. Livingston are very congenial people and expressed themselves as being well pleased with their new home.
