

# New Garage for Courtenay

---

PREPARATIONS NOW BEING MADE  
FOR AN EARLY OPENING.  
TO BE UP TO DATE

---

Sandy Satre, well known here, left Tuesday morning for Minneapolis, where, it is said, he will purchase machinery and also make arrangements for the agency of an auto, preparatory to opening up a new garage in Courtenay.

It is rumored that he intends erecting a building of his own for his new business, but we cannot confirm this rumor at the present time. Mr. Satre will equip for all kinds of auto repairing, and also for engine and other lines of repairing.

It is his intention to get in readiness at once and have things in first class running order by the time spring trade resumes.

This will give Courtenay two garages, and from all indications the automobile business at this point will be very good.
