A little excitement was caused on Saturday morning by the supposed skipping of a man who had been working for a very prominent farmer living near town. It seems that the hired man asked for a horse to go over to a neighbor and the wish was granted, but the man not arriving home that night, the sheriff and police officers were notified at all points around to watch out for the horse thief. At 8 o'clock the next morning the supposed horse thief returned with a "neck full" and laid down in the barn and went to sleep. The horse was found near town and returned to its owner.
