

School is again in progress in Dover after an interruption of about a week caused by the recent destruction of their fine consolidated school building by fire. The intermediate grades have use of one of the churches, the primary pupils hold school in the teacherage, and the old school has been repaired to accommodate the upper grades. These buildings will be used until such time when another new building can be erected. The teachers in charge of the Dover school are: Mrs. A. Peterson, Pearl Donahue, Helen Baker and Corine Mastrude.—Wimbleton News.
