

Johnny Kittelson narrowly escaped serious injury last Thursday morning when his Ford went over the high grade east of town. Some boys who happened to see the accident ran up town and notified several men who, when they arrived at the scene found Mr. Kittelson pinned under the overturned car. After the car had been lifted off him it was found that Mr. Kittelson had not been seriously injured, considering the position of himself and the car. He was unable to account for the accident, but it is probable that a broken front wheel was the cause.
