

Little Doris Palm, the young daughter of Mr. and Mrs. David Palm, was the victim of an accident last Tuesday afternoon that will confine her to her bed for several weeks. She was playing with other children in the back yard of her home near a pile of old railroad ties, when the pile tumbled down, one heavy timber striking Doris on the right leg, causing a compound fracture of both bones just above the ankle. She was immediately put under the care of Dr. Wolverton, and everything that medical skill can do was done for her, but even with the best of care, it will take a long time for the bones to set sufficiently for the child to be able to be up and about again.
