

---

**Dazey Commercial:** R. M. Stee  
came in Monday from Minneapolis  
where he had been for several days  
having his eye treated. When firing  
a gun a short time ago the cartridge  
exploded and a piece of the shell  
flew in his eye. So far the doctors  
have been unable to remove the  
piece but they are treating the eye  
in an effort to avert removing the  
optic.
