

A baby boy was born to Mr. and Mrs. Chester Jackson at Fargo, Thursday, March 30, with Dr. Hanna and Mrs. Dr. Camp in attendance. Chester Jackson came down town at an unusual early hour Friday morning, his face aglow with "that smile that won't come off." He was inquiring for the census taker, stating that the population of our little city had been increased and he desired to have it show immediately upon the census report. It was a boy, and mother and son are doing nicely and with proper care Chester will soon recover from his "son-stroke."

The Exhibition Rells Saturday
