

## Doings In Our School

Mr. Edwards, the state school inspector was here last week.

Prof. Coddling went to Grand Forks on Tuesday evening and attended the State Educational Association meeting.

Last Saturday there was a Halloween party at the schoolhouse. One of the many features was a witch with a magic ring, which delightfully surprised all those who shook hands with her. We understand that after the party at the schoolhouse had adjourned another festivity was held by the overhead bridge just outside of town which detained Leonard, Willard, Elmer and a few others until a later hour.

The Intermediate girls' tating club met with Rachel Knauss Wednesday after school.

Do not forget our Art Exhibit, Nov. 24-27.

Esther Pederson is organist this week.

Thursday the High School boys went to Sutton and played a game of ball—score 6 to 6. During the game the boys thought that the ball was lost forever to a fair damsel of Sutton but the sweet smile of the first baseman won it back. Selmer received some good advice from another young lady but has not decided whether or not to use it.
