

Sentinel-Courier: George N. Shepherd has been busy this week preparing to move to Chester, Mont., near which place he and family will make their future home. George will ship five carloads of horses, cattle, farm machinery, household goods, etc., from Hannaford this week, and himself and family will go overland in their car. Mr. Shepherd intends to either buy or rent a farm in the Chester vicinity, as he believes the future prospects are bright for the farmer in Montana. The Shepherds have farmed in Griggs county for a number of years and have been good citizens who have made many friends during their residence here. Their numerous acquaintances and friends are extremely sorry to learn of their intention to remove from the county, but will wish them unbounded happiness and prosperity in their new home.
