

Oliver Thoreson had the misfortune to be shot through the flat of the left foot last Sunday afternoon while out hunting. The weapon, which was in the hands of one of his companions, was a .22 calibre rifle, and the ball penetrated clear through the foot, and undoubtedly some of the bones are broken or injured. The accident occurred a mile or more north of town, and with the assistance of two of his companions he was able to walk to the section house, and Mr. Cederson took him to town on the hand-car. He was then promptly given medical care and it is hoped that his recovery will be as rapid as the seriousness of the wound will allow.
